Questions Received from Suppliers and Responses from NNEPRA

1. Question: If we cannot make the Sept 1, 2022 delivery date, can the rail be delivered anytime between Sept 1, 2022 and April 29, 2023 or is there specific date it must be delivered between those dates?

Response: As noted in the Invitation to Bid, "the Continuous Welded Rail shall be ready for delivery by September 1, 2022 if possible and no later April 29, 2023." The intent of this statement is to indicate that NNEPRA and Pan Am Railways may be able to take delivery of the CWR as early as September 2022 if it ready for shipment. The deadline for the CWR to be ready for delivery is April 29, 2023. The final delivery date will be determined in coordination with NNEPRA and Pan Am Railways

*****The time and date specified in the original solicitation has not changed as a result of this addendum.*****
